Subject : Facilities Available in the GGSIP University Medical Health Centre

Since the onset of the second surge in the Covid Pandemic in India and the recent lockdown, the GGSIP University community has been reaching out to its employees to help take care of emergency medical needs. With the help of voluntary contributions from employees and support from the University, the University Health Centre now has more than 25 Oxygen cylinders & 6 oxygen concentrators that are available for emergency use.

The Alumni Association of the University School of Chemical Technology, GGSIP University is happy to inform that three Oxygen concentrators of the six have been recently donated to this cause on 'temporary basis' by the Alumni Association of the University School of Chemical Technology [USCTAA] which have been procured via contributions by USCTAA alumni fundraiser conducted in association with the Durga Ma Charitable Society. These three concentrators have been given to the University Health Centre via Directorate of Student's welfare. An email from Dean, USCT has been received endorsing the same. The University community is happy to extend the use of facilities available at the University Health Centre (i.e., oxygen cylinders and concentrators) for emergencies on a first come first served basis to our alumni, students, faculty & staff for themselves as well as their immediate families.

The USCTAA will coordinate with the voluntary work of the Welfare group to help in this endeavour. For information on the USCTAA initiative please contact USCTAA: (i) Anchal Gautam, General Secretary, Students' Council, GGSIPU (9810194189); (ii) Vineet Kumar Thakur, Executive Member, Students' Council, GGSIPU (9654681734)

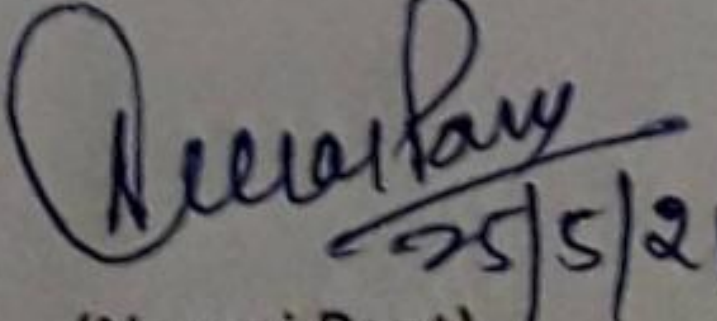

While employees of the University have been connected for their medical needs via a WhatsApp group, in order to streamline the process of sharing these resources among students and alumni, we request all students and alumni in need to kindly fill the following google form and contact Anchal and Vineet for any queries:
