Job Description:

We are looking for motivated Associate Software Engineers who thrive in a startup culture and are eager to contribute to a small but highly effective team. If you're a fresh graduate looking to work with modern web technologies and cloud platforms, this is the perfect opportunity to grow alongside passionate professionals.

Key Responsibilities:

- Develop and maintain web applications using Vue.js and Node.js.
- Design and implement REST and GraphQL APIs.
- Work with Postgres and other relational databases for database management.
- Work on serverless architectures and apply MVC design patterns.
- Gain hands-on experience with Google Cloud components like Pub/Sub, BigQuery, Firestore, and App Engine.
- Utilize Amazon Web Services (AWS) tools.
- Collaborate on projects involving Shopify integrations.

Requirements:

- Bachelor's degree in Computer Science or a related field.
- Familiarity with JavaScript, Node.js, and Vue.js.
- Understanding of REST and GraphQL APIs.
- Experience with relational databases (e.g., Postgres).
- Eagerness to learn cloud technologies like Google Cloud (Pub/Sub, BigQuery, Firestore, App Engine) and AWS.
- Familiarity with version control tools like GitHub and API testing tools like Postman.
- Exposure to serverless architecture and MVC design patterns.
- Experience using development tools like WebStorm or similar IDEs.
- Strong analytical, problem-solving, and communication skills.
- A team-oriented mindset that can thrive in a fast-paced startup environment.
