

# INDRAPRASTHA CENTRE FOR STRATEGY AND POLICY RESEARCH UNIVERSITY SCHOOL OF MANAGEMENT STUDIES

The **Indraprastha Centre for Strategy and Policy Research (ICSPR)** in association with the **University School of Management Studies (USMS)** is organizing a seminar on:

## **Policy Imperatives & Implementation for Sustainable Development**

for **Faculty, Doctoral and Master's** students on **Wednesday, 20th March 2024.**

Policy formulation and its implementation to achieve sustainable development, is a major challenge as it aims to balance resource utilization to meet present human needs while safeguarding the interests for future generations. Over the past two decades, various stakeholders including governments, businesses, and civil society have committed to pursue sustainable development goals. However, despite the acknowledgment and laying down multiple policies for sustainable development, meaningful efforts and its implementation in various sectors have been very marginal. This has resulted in failing to initiate necessary fundamental changes for transitioning to sustainable development. It is imperative to integrate technology, financial inclusivity, legal framework, and government policies to develop and design pathways of implementation at the grass root level to ensure policies can meet the goals of sustainable development.

**Date:** Wednesday, March 20th, 2024

**Time:** 10:00 am to 1:30 pm followed by lunch

**Venue:** Seminar Hall, C Block,

Guru Gobind Singh Indraprastha University, Dwarka, New Delhi

### **About the Indraprastha Centre for Strategy and Policy Research:**

**ICSPR** is a dedicated centre of excellence in the field of Strategy and Policy Implementation and research. This multi-disciplinary centre aims to fill the gap by conducting implementable programs, research, improving situational awareness, proactive risk management and engagement with leadership at all levels.

### **About the University School of Management Studies:**

The **University School of Management Studies (USMS)** is one of the most forward-looking and dynamic school's of the University offering management programmes with a distinct curriculum and teaching methodology. The MBA programmes offered by USMS have been crafted with great care keeping in view the future needs of business. They also reflect on the sensitivity expected from upcoming managers to the changing aspirations of the community in a rapidly evolving technological environment. USMS offers MBA, MBA (Financial Analysis), MBA (Analytics) and a two-year Executive MBA programme for working professionals.

### **Seminar Highlights:**

The program will focus on the following topics:

1. The importance and relevance of government policies and frameworks for sustainable development.
2. Economic framework and inclusivity in policy formulation for sustainable development.
3. The role of technology especially in the telecom sector and digital economy in policy formulation for sustainable development.
4. Comprehensive legal frameworks that provide for integration of environmental, social, and economic dimensions.
5. Critical measures required to develop the right policy to drive meaningful progress towards sustainability.

### **Key Takeaways:**

1. Understand the multifaceted nature of policy formulation for sustainable development.
2. Understand the importance of macro-economics, technology, and legal framework for fostering cross-sector collaboration among governments, businesses, and civil society to effectively address sustainability challenges.
3. Development of responsible business models to ensure a sustainable process that considers stakeholders' feedback.
4. Identification of avenues for future research for candidates who are keen to pursue master's or doctoral studies, and research.

### **Who Can Attend:**

Faculty members, doctoral and master's students in Management, Economics, Sociology, Political Science, Environment, Education, and allied disciplines are eligible to register for the seminar. We encourage candidates who are keen to pursue master's or doctoral studies, or research in the future to attend this seminar. Due to the limited number of seats, preference will be given in the order of applications received.

### **How To Apply:**

People who meet the criteria are requested to apply by 15th March 2024 using the following link:

<https://forms.gle/KLr1frKDqatXNPRx7>

### **Fees:**

**The seminar is free for all interested candidates.**
