EDUCATOR FOR TEACHING

Organisation:	Thomson Digital India
Role:	Educator
Reporting to:	Chief Manager
Location:	Noida

Role Summary

An exciting opportunity exists for Educatorsto join the newly established Ed-Tech product to develop adaptable and personalized learning for cracking competitive examinations like JEE and NEET examinations in India.

This position is with Q&I (www.qanditoday.com)which is an India Today Group company.

It is highly desirable if you come from the Ed-Tech industry and possess a strong pedigree of Tier-I education and professional background.

This role will develop and bring in very exciting personal, professional growth opportunities as the new Ed-Techventure and products takes shape and makes its impact pan-India

Key Activities &Responsibilities

Job Description:

- The role will be to teach students aspiring for IIT/NEET the subjects Maths, Physics, Chemistry and Biology online in front of a camera in the most engaging, elaborate, interesting and innovative way possible in languages English / Hinglish with the primary objective to facilitate student's learning and understanding
- Research about the most effective content matter and delivery techniques for students
- Be part of the content team and develop content materials of the respective subject.
- Be an academic mentor to a group of students, understand their challenges and bring innovative solutions and techniques
- Reviewing of the content created by other content developers or SMEs and to guide them in order to prepare the content of highest quality
- Work on solving doubts & writing solutions for students' live questions
- Expert level proficiency for JEE main and NEET examination
- Has passion towards education and effective content communication through visuals.
- Has strong subject expertise and could apply theoretical knowledge to the practical applications through varied audio-visual elements.
- Shows adaptability and ability to multitask, while meeting deadlines and training other team members in different processes.
- Makes learning easy for students from different backgrounds and of different cognitive abilities and yourself should be open to learning new concepts and tools.
- Identifies loopholes in the existing processes and brainstorm and design creative ways to improvise them, and conceptualizes and lay down the outline for the new processes and optimize resource allocation.
- Is comfortable using technology tools for both video and textual content creation and delivery.
- Produce answers that are 100% accurate
